Rechargeable Bluetooth label printer for desktop or mobile devices

P-touch CUBE Pro (PT-P910BT)

brother.com.au

P-touch CUBE Pro
PT-P910BT

Smart fully featured mobile label and ribbon printer with Li-ion battery and Bluetooth connectivity

The P-touch CUBE Pro gives you the flexibility to print labels up to 36mm in width using your PC or Mac, or from your smartphone or tablet using the free desktop and mobile apps.

Produce fully customised labels or ribbons in minutes by choosing from a wide variety of tapes in many colours, sizes and finishes that give your business a professional image.

Design and print labels direct from your computer or smartphone

The beauty of the P-touch CUBE Pro is its ability to work how you want, and when you want.

P-touch Editor
Download now at:
support.brother.com

If you prefer to create labels on your desktop computer, use P-touch Editor for PC or Mac for virtually unlimited design options including text, images, frames and barcodes. Even link to your data in Microsoft Excel* to merge and print multiple labels at once.

Design&Print 2
Download from your app store

For ultimate convenience, no matter where you are, connect wirelessly via Bluetooth from your smartphone or tablet and use the P-touch Design&Print 2 app for simple, elegant labelling with many pre-designed templates available. New features include text scan, sharing labels to the cloud/email and translation capabilities#.

iPrint&Label
Download from your app store

If you want full customisation of your labels, use the Brother iPrint&Label app to add text and images, change fonts and resize objects as you need. Easily create barcodes including QR codes - customers or staff can scan the QR code on their mobile device and be taken directly to your website or other important information.

** Only supported on Windows version of P-touch Editor*
 # Translation feature coming soon.

Key Features:

- Print durable, high quality labels and ribbons up to 36mm wide for commercial and professional labelling
- Built-in Bluetooth enables wireless printing from your smartphone, tablet, PC or Mac using the free desktop, iOS and Android label design apps
- This mobile and compact device with a long-life Li-ion battery is designed for flexibility - use it on the move or print and recharge from your computer at the same time using the USB cable
- An advanced cutter, including rotate and half cut, makes 36mm labels very versatile. You can print multiple labels joined together in a long strip, keeping them in the correct order and easy to peel
- Mobile Software Development Kits (SDKs) available for Android, iOS and Windows

Standard labels with various text and background colour combinations including transparent for door signage

Tape Applications

Tapes available include:

Metallic silver labels for shelving and signage

Flexible ID labels for cable identification

Highly visible fluorescent labels for important notices

Tamper evident security labels that cannot be reapplied once removed – ideal for asset marking

Premium labels with gold and silver glitter backgrounds ideal for staff name badges or hotel signage

Patterned background labels including silver lace, gold geometric and red/white gingham

Print luxurious satin ribbons for personalising gifts and more.

Extra-strong adhesive labels for long term durable labelling whether indoors or outside

Matt tapes with a non-reflective surface to give a high quality finish

Iron-on, wash-proof labels for identifying staff workwear or children's clothing

Your label printer is only as good as the tapes it uses

The Brother P-touch CUBE Pro uses TZe tapes, giving you an unrivalled range of choices when it comes to your labelling needs. Whether you work in an office or retail, education or healthcare, hospitality or logistics, skilled trades and more, there are hundreds of applications for our labels and ribbons.
